

## Session Login Integration Guide

You can integrate the BeamYourScreen session login within your website to allow participants to connect directly from your website.

Copy the following HTML code into your website:

```
<!-- BeamYourScreen Session Login Start -->
<strong>Session Login</strong>
<form method="POST" action="http://go.beamyourscreen.com">
<input type="hidden" name="sl" id="sl" value="en">
<input type="hidden" name="css" id="css" value="">
<table border="0">
<tr>
<td>Session ID:</td><td><input type="text" name="sid" id="sid"></td>
</tr>
<!--
<tr>
<td>Password:</td><td><input type="text" name="sp" ID="sp"></td>
</tr>
-->
<tr>
<td>Name:</td><td><input type="text" name="sn" id="sn"></td>
</tr>
<tr>
<td></td><td><input type="submit" value="Join Session" id="btnSubmit" name="btnSubmit"></td>
</tr>
<tr>
<td valign="top">Connection Method:</td>
<td>
<input type="radio" id="cm" name="cm" value="1" checked="checked">Standard<br>
<input type="radio" id="cm" name="cm" value="2" >HTML
</td>
</tr>
</table>
</form>
<small>Powered by <a href="http://www.BeamYourScreen.com/?mid=SLICEN"
target="_blank">BeamYourScreen</a></small>
<!-- BeamYourScreen Session Login End -->
```

**Note:** If you are integrating the session login into a Wordpress web page, you may need to remove the <!-- and --> on lines 10 and 14 respectively, which surround the Password field.

Please do not hesitate to contact us, should you have any questions.
