BeamYourScreen Combats Airline Strike

BeamYourScreen is easing the pain of missed flights and business meetings as a result of airline and rail strikes, by providing companies worldwide with a free software solution to host their business meetings online - eliminating the need to travel.

Mannheim, GERMANY January 28, 2009 - Following Lufthansa AG flight cancellations, flight attendants walking off the job and further delays expected, renowned online collaboration provider BeamYourScreen (<http://www.BeamYourScreen.com>) is offering all affected parties a unique opportunity to use its software solution at no charge in order to host business meetings via the Internet.

The transport industry appears in disarray in some parts of the world in particular Germany, Europe's biggest economy. Lufthansa hit strong union turbulence with the occurrence of strikes resulting from wage negotiations, while the German national rail operator (Deutsche Bahn) is under similar pressure after wage negotiations with major German rail unions have also led to strikes this week.

BeamYourScreen's fast and easy solution to the strikes is simple - do not travel. If the transport industry cannot be relied upon, business travelers are likely to encounter heavy delays and in some cases miss important meetings and conferences. With BeamYourScreen, business travelers no longer need to fear missing a meeting, regardless of rail, hail, shine or even airline strikes.

Rather than travel, BeamYourScreen provides an effective way of participating in business meetings from any Internet connected PC around the globe. The user simply starts a meeting from their desktop and invites their colleagues/clients to participate. Instantly, the participants are able to view the screen of the meeting organizer in real-time, just as if they were sitting in the same room together.

"At BeamYourScreen, we know exactly what it is like to have to endure tiresome and long travel simply for a brief chat that could have been accomplished online," explains Mr. Boos, entrepreneur and Co-Founder of BeamYourScreen. "In fact, the idea behind BeamYourScreen was born from such personal experiences."

Business travelers quick to act can now receive their free Strike-License for the duration of the strike, and avoid the hassles of transport delays by organizing their meetings on the Web. Strike-Licenses will be approved and ready to go within minutes by contacting BeamYourScreen via phone or email.
